

## **Amendments To The Specification**

Please replace paragraph [0006] with the following amended paragraph:

**[0006]** The present invention is further described in the detailed description which follows, with reference to the noted plurality of drawings by way of non-limiting examples of exemplary embodiments of the present invention, in which like reference numerals represent similar parts throughout the several views of the drawings, and wherein:

Fig. 1 is a block diagram illustrating a schematic configuration of a network system according to the present invention;

Fig. 2 illustrates menu columns displayed on a screen when a user logs into the system from a client apparatus of Fig. 1;

Fig. 3 is a flowchart illustrating a process performed by the network system of Fig. 1;

Fig. 4 illustrates an input screen for job count conditions that is displayed at a client apparatus when specifying a count type and count period illustrated in Fig. 3;

Fig. 5 illustrates an example of a job type specified from the input screen for job count conditions illustrated in Fig. 4;

Fig. 6 is a screen for job count result displayed at a client apparatus during the process for outputting count result of Fig. 3;

Figs 7(A) – 7(D) illustrate examples of lists of counted results Fig. 7 illustrates an example of a list of counted result displayed with the screen for job count result of Fig. 6;

Fig. 8 illustrates a schematic diagram of a remote process that is one of job types of Fig. 5;

Fig. 9 is a screen for display item settings that is displayed at a client apparatus during the display item setting of Fig. 3;

Fig. 10 illustrates an example of settable display items on the screen for display item settings of Fig. 9;

Fig. 11 illustrates a screen for device information list that is displayed by a client apparatus during the device management information setting of Fig. 3;

Fig. 12 illustrates a screen for adding device information that is displayed by a client apparatus during the device management information setting of Fig. 3;

Fig. 13 illustrates a screen for export information list that is displayed by the client apparatus of Fig. 1; and

Fig. 14 illustrates a screen for adding export information that is displayed by the client apparatus of Fig. 1.
